

MILLIKAN HIGH SCHOOL  
Office of the Athletic Administrator

## EXTRACURRICULAR ACTIVITY APPROVAL

Participation forms are not required in the case of curricular or regular school activities because of Insurance provisions which are made by the Board of Education. Constitutional and statutory provisions deny the right of this Board to make similar provisions for extracurricular activities, hence the requirement of special participation approval.

The Board of Education deems many of the extracurricular activities to be worthy for students, but does not require them of students. These activities are voluntary on the part of students and a signed participation form is necessary before participation. No penalty other than nonparticipation will be assessed if the participation form is not signed.

In signing the Parent/Student Acknowledge Signature Sheet, you are stating that you are aware that this activity is an extracurricular activity held under school supervision. It is not a required activity. You also understand that the Board of Education, the school district, or its employees will not be held liable for injuries from participation of your child in this activity or from transportation related thereto.

### SPECIAL ADDENDUM FOR FOOTBALL PARTICIPATION

If your son is playing football, in signing the Parent Student Acknowledgement Signature Sheet, you are stating that you are aware that football is an extracurricular activity held under school supervision. It is **NOT A REQUIRED ACTIVITY**. You are signing that you are aware that football is a high risk activity where injuries may occur. In signing this form you agree to hold the Board of Education, school district, and its employees harmless from any liability for injuries to your child/ward resulting from the participation of your child/ward in football or from transportation related thereto.

### ELIGIBILITY RULES

Eligibility rules apply in all games including practice, scrimmage, league, tournament, and play-off games. To protect your athletic eligibility you must:
